Subject: Special Services Contract

Dear Mr. Larson,
The Special Services Contract between the Department of Public Safety and the City of Seldovia is due to expire on June 30, 2017. We have been unable to have the contracts for FY18 ready for signatures.

We are asking you to continue the contractual services as is until we can prepare the new contracts.

Let me know if you have any questions.

Thank you.

Report

- We hired Jackie Taylor as our new finance officer. She will be a great addition to the city staff. She started work last Thursday. Welcome to Jackie!
Cassidi has been a great employee for the city and she will certainly be missed.
Jenny Chisus put on a great flag day ceremony/celebration. She recognized veterans and provided hats as a thank you. It was very nice of her to conduct the event.
The State has a budget so there won't be a shutdown.
Jackie is transitioning with Cassidi and training is going well. Cassidi's last day (as a full time employee) is this Friday. She will come in periodically through July and then spend two full weeks in August in order to help Jackie prepare for the audit the first week and to go through the audit the second week.
The clinic has been cleared out and is now vacant.
I'm working with the USDA rural development director to discuss grant options for energy related work (harbor lighting and windows for the multipurpose building). She has tentatively committed to come to Seldovia with her supervisor sometime in later July.
The city received our "Interim Ability to Operate" letter from DEC this week. It's effective for one year. During that year there are a few conditions that I'll have to track down and report to them. Public Works has some normal operating tasks to report as well. As part of the new plant, both of our operators will need to become level 2 certified. This requires passing the test for level 2 water operator and logging time at the plant. I'm also working with Village Safe Water to get training for HAZWOPR (Hazardous Waste Operations and Emergency Response) and Confined Space Entry for our Public Works employees.

Handwritten notes: Rojas - building needs help don't cut her off. Lethin - she is also talked to about choice that we won't qualify for.

Handwritten note: I'll check on heat. Want to go after smaller pieces 25 to 30 thousand dollars for harbor lights.

Handwritten note: Rojas - local group who brings 200.

Handwritten note: sewer can't have 8 inch into 4 inch.

Questions/Clarifications

- None.

Handwritten note: Hits - Also Tod opted abuse + Nareon training a kits.

Seldovia, Alaska

FOURTH OF JULY 2017
